

December 2018

Dear Colleagues,

The Meeting of the BRSS is as discussed last year going to be attached to the SBNS Meeting in Manchester. We look forward to excellent participation from specialists involved in Radiosurgery or those feeding into Radiosurgery services.

The meeting this year will run on the last afternoon of the SBNS Meeting on Friday the 22nd March 2019. We would like to invite you all to actively contribute to the program focussing on results, quality assurance, service delivery after procurement and early outcomes. Any participation is welcome and will support the Meeting.

Please forward your presentations, case reports for participation in the scientific programme. These should not be longer than 8 minutes and allowing for 2 minutes of discussion. It is a fantastic opportunity for young aspiring neurosurgeons or radiation oncologist, physicists, radiographers to present in a national meeting in a friendly environment.

Considering the commissioning of Centres took place now nearly three years ago we would be very interested to hear about each Centre's growing experience good or bad and we will allow for such presentation in the programme. Please let us know who will represent each Centre.

We hope many of you will be able to attend. Finally, it is important that we have a good idea of numbers attending, in advance of the event itself – there is no fee or charge involved, as we are adequately sponsored independently, but logistic and catering requirements do need to be properly planned. We would therefore be very grateful if you could confirm your intention to attend by e-mail to:

radatz@blueyonder.co.uk

We look forward to welcoming you to Manchester in March.

Yours Faithfully,

Matthias Radatz FRCS MD
President, British Radiosurgery Society

Ian Paddick MSc
Vice-President, British Radiosurgery Society
